WORLD HAPPENINGS
BRIEFLY TOLD

By an order-in-council the Saskatchewan Gasoline Act, 1928, has been amended to exempt railway companies operating in Saskatchewan from payment of the tax.

Last year \$3,000 British subjects from the United Kingdom were helped by the Government to settle overseas, states the Overseas Settlement Commission.

Negotiations for trade treaties with several foreign countries, including Newfoundland, will be entered by the Canadian Government during the present year.

Dr. Otto Hamman, long a figure in German political life and chief of the press bureau of the foreign office from 1894 to 1915, is dead at the age of 76.

The equal franchise bill, giving women the vote at the age of 21 under the same terms as men passed its third reading in the House of Lords, without discussion.

More beet, more parsnips, more cauliflower and more cabbages are produced annually at the Saskatchewan province in Prince Albert than in any other part of the world.

At Philadelphia the seaplane P-12, carrying a useful load of 2,000 pounds (approximately 1,400 pounds) broke the world's altitude record by ascending more than 12,000 feet.

A new five-cent air mail postage rate, to be effective August 1st, was announced by Postmaster General New, of the United States. A five-cent air mail stamp has been authorized.

Dr. Fridtjof Nansen, famous Arctic explorer, told the Canadian Commission of Arctic Exploration that in 1929 he intends to make an extended polar flight in the dirigible, which he said this ship was now being constructed in Germany.

Put Trout in Fish Culture
Experiment in Plain Lake is Done Successfully in Jasper Park

After a journey of at least two thousand miles the first group of United States immigrants that ever settled in Canada has established its home in Jasper National Park.

During the week-end 20,000 Brook trout migrating all way from Creco, Pennsylvania, were placed in the water of Malgine Lake. They came to Canada last winter as eggs and for months they have been carefully nursed in a hatchery especially constructed for them.

Herbert Davis, one of the park wardens, whose charge they were, watched them grow from eggs to fish, kept the cold water running at the proper temperature, and when they were big enough to eat fed them chopped fish.

They were brought from Pennsylvania to Jasper by Canadian National Express, and were transferred to Malgine Lake by the same company and automobile. There was no difficulty in these last 35 miles to keep the time in which they floated constantly moving, and they made the journey without mishap.

The water of the lake was tested before they were lowered into it, and they were immediately acclimated.

Immediately, Oliver Bright, of the Dominion Hatchery at Fort Qu'Appelle, supervised operations and Wardwell saw them keep watch over his pets until he saw them in their new home.

The stocking of Malgine Lake with trout is one of the experiments being made in glacial water by the Dominion Government.

Reason For Expansion
With Canadians eating on the average, 80 pounds of pork per capita per year, 75 pounds of beef, but only 10 pounds of lamb and mutton, there would seem every reason for expansion in the last named meat, according to a statement issued by the Canadian Co-operative Wool Growers' Association.

Speeding Up Mail Service

Letters From British Isles Delivered From One To Four Days Earlier
Letter mail from the British Isles and Europe will be brought from one to four days quicker to Canada through the Canadian Air Mail Service, recently inaugurated.

The Canadian Post Office Department, following successful experiments made last year, has entered into contracts for the conveyance of mail by air, to and from trans-Atlantic steamers.

Letters are sent at Rimousi on the River St. Lawrence and letter mail is taken off by aeroplane to Montreal, Ottawa and Toronto. Mail for western points are carried in the plane to Toronto and from there sent on by train.

The advance in delivery is from twenty-four to seventy-hours, depending on the time of arrival of the steamer, train connections, etc.

On outgoing steamers a supplementary despatch is given to business correspondence by direct air service from Toronto, Ottawa, Montreal to Rimousi, where this mail is placed on a steamer sailing from Montreal.

At present the Canadian Air Mail Service is operating in principle only, but in the near future it is expected to carry specially marked international mail between European mail, advantage is taken to speed up the transmission of mail.

Red Cross Editorial Content

Constitutions Are Extended To The Widows In Both Daily and Weekly Expenses

Congratulations are now being widely offered all over Canada to those who have won prizes in the recent editorial contest inaugurated by the Canadian Red Cross Society.

The contest, which was held in the daily and weekly press of the Dominion, was won by Miss M. J. L. Dunlop and the founding of Red Cross for the world.

Saskatchewan Anti-Tuberculosis League

Movement To Have Free Treatment Of All Patients At The Public Expense

The annual meeting of the Saskatchewan Anti-Tuberculosis League was held at the Sanatorium, Fort Qu'Appelle, on Thursday, June 14th.

In addition to the routine business, Mr. A. B. Cook, the president, and Mr. J. L. Lamb, Secretary of the League, presented a report on the work of the League to date, and stressed the imperative necessity of extending the activities of the League in view of the present situation.

The examination of known "Contact Cases" he pointed out that at present no funds were available for work, and that it had been decided, this year to proceed with the sale of the Dominion and in the United States, where funds for both curative and preventive work are largely secured by the government.

Mr. J. L. Lamb, Secretary of the League, presented a report on the work of the League to date, and stressed the imperative necessity of extending the activities of the League in view of the present situation.

There are Two Sides to this Story

Most people think of their Chevrolet dealer as a

NEW CAR dealer. He knows that it is just as im-

portant for him to sell a Used Car as a new car. He

knows that Used Car buyers have a right to be as much for

their dollar and are entitled to as complete satisfaction

as new car buyers. He knows that satisfied Used Car

owners will eventually become prospects for new cars. He

knows the value of good-will. In short, our business as Chevrolet dealers depends on

our reputation as used car dealers. That is why you are

sure of a square deal and a sound dollar-for-dollar value,

when you buy a used car.

PAY FOR PRISONERS

General Hughes, the warden of
Kingston Penitentiary, made a new
proposal that, if adopted, should lead to
a great change in the lot of prisoners in
our jails and convict prisons, and
was so accurate in his estimate of the
dependent families of inmates of prisons,
undergoing punishment. This good and
sensible proposal is that prisoners
should be paid for their work and the
money so earned should go to the sup-
port of prisoners' families or to them-
selves to help them get started upon
their return to liberty.

There is much to be said for the
suggested plan. For one thing it
it would serve to prevent men losing
all their self-respect, as so often hap-
pens to the prison inmate. The very
thought that a man's wife and child-
ren are deprived of his support tends
to lessen the prisoner's respect for
himself and causes him to lose heart
and hope. For another thing a pris-
oner would find a greater joy in work-
ing for wages than when performing
the almost endless and menial work
useless tasks given him to do under
present conditions. To know that the
work he does has some value placed
upon it, instead of being merely a
line-item clerk to keep him occupied,
must help a man to feel he is still
something of a man.

The whole theory of punishment by
imprisonment is due for re-examina-
tion. Punishment if it is solely vin-
dictive and punitive is useless for the
purpose for which designed. Unless
punishment aims at reforming men,
rebuilding character, and aiding men
to desire to become good citizens once
more it serves no useful pur-
pose. It is at once un-
Christian and unbecomingly barba-
ric. It is a punishment which is
often so treated penalty for their-
selves often treated in prison as to make
them embittered against the state and
determined upon revenge. They be-
come dehumanized frequently, and the
treatment they receive at the hands of
society makes them its enemies. This
is not true in every case but in far
too many.

Let all prisoners be treated with
kindness, wisdom, and practical phi-
lanthropy without in any way reducing
them. Help them to go forth from
jail determined to be better and do
better, give them a helping hand after
they leave prison, allowing no stigma
of imprisonment to attach to them,
and most so-called criminals can be
redeemed. General Hughes' propo-
sition not only reflects credit upon
himself but will bring satisfaction and
pleasure to all people who have "Kin-
dness in another's trouble; courage in
their own. Let the government act in
this matter without delay.

A BEAUTIFUL GOLDEN DREAM

A lay teacher asked his pupils to
write a story taken entirely from their
own imaginations. The following
composition was the highly interesting
result of one bright little girl's efforts.

"Right after they were married the
bridegroom said to his bride, 'I must
leave you now, for I have no money,
and I must go out and dig for gold
way across the coast, or we must starve.'

"'Go, my bridegroom,' said the
bride, 'and I will wait for thee.'

"Seven years passed, and one day the
bridegroom came running to where his
bride was seated in the parlor of
their home, and he took from his grip
great bags of gold, which he dropped
at her feet, and on them he placed
small bags which he had taken from
his coat and pants pockets.

"'There, my bride, is the gold I
promised you.'

"The bride's face was lighted with
a smile, and she said, 'Neither have I
been idle, my bridegroom,' and she
opened a door which led to another
room, and in it stood a splendid silver
crown."

A successful leader is one who can
guess which way the crowd wants to
go.

Vigorous exercise may prolong
life, but we never saw a turtle doing
his daily don.

A Hoboken woman used a bakery
because she broke a tooth on a bolt
found in a pie. One should never
bolt food like that.

In Russia a man and wife may be
divorced by simply agreeing to it.
But if they could agree there would
be no need of a divorce.

Negotiations With West Over The Return Of Natural Resources

Ottawa.—There is every prospect that the present year will see important developments in the relations between the Dominion and all the provinces as affecting the natural resources which are being granted. The matter, it is known, has been under consideration all year and will be further considered when, during the summer months, negotiations with the western provinces respecting the return of their natural resources.

Similarly, the subject was a most important feature of the agenda of the Dominion-wide conference last fall.

It is understood that the Dominion government is anxious to have a specific delineation of its sphere and those of the provinces and to avoid overlapping and the use of federal authorities of local work. The grants for highway improvement are not being renewed while the aid to technical education is also lapsing.

Saskatchewan's public lands have been so extensively alienated that it is likely to claim in addition to the return of what remains. The province has a population of 500,000 per year to which it is estimated that it has a population of 500,000.

For such a concession by the Dominion government the outlook is not unattractive.

Will Aid Canadian Ports

Grain Commissioners Promise Support To Vancouver and Other Ports

Vancouver.—The Board of Grain Commissioners of Canada will exert every effort to aid the ports of Vancouver, and keep Canadian grain moving over Canadian railways and through Canadian ports.

These sentiments, together with a warning that United States ports and transportation facilities have been looking with eager eyes on the grain crop of Canada, were expressed by Hon. H. Boyd, chairman of the Dominion Board of Grain Commissioners, here.

The occasion was the annual banquet celebration of the 50,000,000 bushels of grain given by the Vancouver merchants to the Dominion Board of Grain Commissioners. More than a hundred grain and shipping men attended the guests including, besides Mr. Boyd, James Robinson, and Matthew Brown, and Secretary Hathorne of the Board of Grain Commissioners.

Col. R. D. Williams, president of the Vancouver Merchants' Association, was chairman and in a speech to the 50,000,000 bushels gave a resume of the history of the board.

"I am not given to prediction but I feel quite sure that Vancouver will pass the 10,000,000 bushel mark during the 1928-29 season," declared P. R. McD. Russell, chairman of the Vancouver harbor board.

Embargo Will Be Lifted

Dairy Products From Montreal May Now Enter U.S. Again

Montreal.—Long awaited removal of the United States embargo on Montreal milk products will be realized within the next few weeks, it is rumored.

The Montreal, prohibiting the importation into the United States of milk, cream, butter and cheese originating in Montreal, was ordered July last month and was the typical fever outbreak occurred.

"The United States officials have signified that they will lift the embargo upon receipt of advice that certain requirements have been complied with. This assurance will soon be forthcoming," it is said.

Will Make World Tour

Minneapolis.—James W. Davidson, explorer, explorer and diplomat, a resident of Calgary, Alta., has accepted appointment as special representative of the International Rotary Convention around the world to visit clubs and survey other countries not yet in Rotary.

Had Narrow Escape

Window Cleaner Clings To Rail On Third Story Vault Rescue
Winning. Clinging desperately with his fingers to a window sill on the third story of the Grain Exchange building here, Henry Hlatina miraculously saved himself from death. He was hanging by his window and was adjusting his safety belt when the heavy steel shaft fell, knocking him down. He was rescued by the fire department and was taken to the hospital.

Caught In Snowstorm

Colorado Tourists Marooned At Summit Of Pike's Peak
Colorado Springs, Colo.,—Twenty-five tourists have been marooned on the summit of Pike's Peak after being caught in a snowstorm for 24 hours by this region in several years.

Some of the tourists were taken to the hospital. The snow was so deep that it was impossible to get out. The tourists were taken to the hospital and were given medical attention.

EFFORTS MADE TO PUSH WORK ON H. B. ROAD

Ottawa.—Work continues to be pushed on the Hudson Bay Railway, with considerable delay in progress. Whether the road will be finished by the end of the year is not certain, but it is hoped that it will be completed by the end of the year.

Must Make Restitution

Chicago Mayor and Three Others Owed \$1,782,750 To City Treasury
Chicago, Ill.,—Mayor William Hale Thompson, Michael J. Flaherty, George F. Harding and Percival B. Coffin, public administrators of the city, real estate experts, were found in circuit court yesterday to be liable for hitting the real estate men to pay special work under the late Thompson administration. The city treasury of \$1,782,750. Judge Pugh ordered the defendants to make restitution of that sum to the city treasury.

The court, terminating the two-year suit, said the city treasury had a two-fold purpose, "financing the political activities of the Thompson administration, and for the private benefit of the members of the conspiracy."

Says Navy Best Defense

Preserves Unity Of Empire Declares President Of League
London, N.B.,—Treaties and pacts could save the world from the "sure shield" of the navy, declared the president of the League of Nations before the annual meeting of the Navy League here. The unity of the Empire, he said, is the best defense.

Town & District

Dr. Windsor has returned to Gleichen.

Mrs. McNeil has left to make her home in Calgary.

Miss King left Monday to spend the holidays at Victoria, B. C.

Mrs. S. E. Dufco left last week to visit her former home near Birle, Man.

Mr. and Mrs. Frank Bates desire to thank all who helped them at the recent fire.

Livingspring School is calling for tenders, elsewhere in this issue, to redecorate the interior of the school.

Thirty eight stray horses in the South Camp mound, south of Cluny are advertised elsewhere in this issue to be sold on Friday next July 6th.

H. H. Hall, our obliging C. P. R. station agent, left last week to visit his former home in Lindsay, Ontario. He was accompanied by Mrs. Hall and children and expects to return in a couple of months by motor.

J. Stauffer, one of Gleichen's very best baseball players, has been moved to Dunsmuir, by the C. P. R., much to the disappointment of all Gleichen folks. He will be a welcome visitor to this town.

The Gleichen Outfitters have purchased the Blackburne brick block and will remodel it for lodge purposes. It will undoubtedly make by far the best lodge room Gleichen has ever had.

Gleichen School Exams.

CALGARY EXHIBITION AND STAMPEDE JULY 9 TO 14

In view of the special features of the Calgary Exhibition and Stampede, it will not be surprising that the management claims this to be the greatest show on earth for the money. \$1.50 in the afternoon, \$1 in the evening, is the price for the choicest reserved seat. Thousands see the show for 75c or 50c. Where can you equal it? Seat reservations should be made early to avoid disappointment, and rooms, either in hotels or private homes, can be engaged by writing to D. F. Whitney, president of the Alberta Hotel Association, Calgary. Patrons may have their mail addressed to themselves care of the postoffice on the Exhibition Grounds, Calgary.

There will be special reduced fares from Saskatchewan, Alberta and British Columbia mainland points. Summer tourist rates from wherever you may live to the Calgary Exhibition and Stampede and to Banff, the gem of the Canadian Rockies.

Calgary has an up-to-date automobile camp, and the main highway from the International Boundary and from Calgary to Edmonton as well as from Calgary west to the mountains is all gravelled. The Banff-Windermere Highway is one of the most beautiful motor roads in the world, and as Calgary is only three hours auto drive from Banff, this provides a splendid opportunity to enjoy a mountain holiday after the dates of the Calgary Exhibition and Stampede.

THANKS

The principal and staff of the Old Sun School desire to earnestly and very gratefully to thank all who so kindly rendered their assistance on the occasion of the regrettable and disastrous fire which resulted in the destruction of our school. To the members of the Gleichen fire brigade very special thanks are tendered. We remember the lads who prepared and set the principal's residence. To the staff of the Indian agency and hospital and other friends we are grateful for the kind hospitality during the trying time following the disaster.

F. M. ROSS GIBNEY, Principal.

TENDERS WANTED

On labor for balooning walls, varnishing woodwork, retouching blackboards, of Living Spring School, Lewiston or any tender not necessarily accepted.

J. A. MCARTHUR, Secretary-Treasurer.
